GLOBAL REGULATORY STANDARDS (Similar to MiCA)

Region	Standard	Focus	Comments
EU	MiCA (EU 2023/1114)	Comprehensive regulation of crypto-assets, ARTs, EMTs,	Covers utility, asset-referenced, and e-money tokens
USA	SEC / Howey Test / Reg D / Reg S / Reg CF	Securities regulation	No unified crypto law; case-by-case classification of tokens
Switzerland	FINMA Guidelines (2018-2023)	Token classification: payment, utility, asset	Well-defined framework, used by Sygnum and SEBA
Singapore	PSA + SFA	Regulates DPTs and security tokens	MAS requires licensing for many token types
UK	FCA Guidance on Cryptoassets	Token categories: e-money, security, unregulated	Building towards a broader regulatory framework
UAE	VARA (Dubai) + ADGM (Abu Dhabi)	Virtual asset regulations	ADGM offers sandbox regimes for tokenized RWAs
Hong Kong	SFC-s STO Guidelines	STO rules aligned with traditional securities	Focus on investor protection and licensing
Japan	PSA + FIEA	Clear definition of security tokens	Highly structured approach for token issuance
Australia	ASIC INFO 225 & 230 + Token Mapping 2023	Classifies crypto-assets as financial products or not	Token mapping initiative under way
